

Nova Mobility Systems Hires Technology Veteran Bob Saucedo As President.

Phoenix, AZ (PRWEB) September 09, 2007 -- Nova Mobility Systems, a leading Rugged Tablet PC Manufacturer, today announced the appointment of Bob Saucedo as President as Nova continues its rapid growth.

“We believe Bob brings a unique combination of experience in building fast growing technology companies and high level managerial expertise in the wireless business to our team,” said George Ecker, Nova’s CEO. “As Nova continues its growth, Bob Saucedo’s track record will provide Nova with the guidance and background the company needs to continue to capture Tablet PC market share and be a leader in the mobile technology industry.”

Saucedo’s former positions include Senior Vice President, Wavelink Corporation and Vice President of Marketing for Wall Data. Prior to that Saucedo served as the Vice President of the Mobile and Wireless Division for Symbol Technologies where he both architected and lead a dramatic turnaround of the division.

Nova’s focus on developing innovative Tablet PC solutions and Mobile Technologies for specific markets is very unique and interests me,” said Saucedo. “The company’s growth and management team present the same potential for success that I have experienced in the past.”

Saucedo holds an MBA from Pepperdine and a Bachelor’s Degree from California State University, Los Angeles.
