

Applications:

**Automotive Industry • Warehouse • Hospital • Education • Insurance Sales Advisor
Mobile Station for Logistics • E-Home Control Panel • Hotel • and More!**

Due to enhanced portability, the NMS 4000 can be carried around and applied at home, office or act as a remote station in different working environments with ease. The NMS 4000's most unique features are it's small touch screen size (8.4"), and it's weight (1.19kg, with battery) which makes it extremely convenient to travel with. The 360 degree rotating screen lets you work any way you want, whether portrait or landscape, left or right-handed.
