

Nova Mobility Systems Announces A New Partnership With Tablet PC Distributor Tegatech Australia.

Phoenix, AZ (PRWEB) August 15, 2007 -- Nova Mobility Systems, a leading Rugged Tablet PC Manufacturer, announces a new partnership with Tegatech Australia; a leading Tablet PC Distributor, as part of Nova's ongoing international expansion.

As result of this new partnership Nova's line of Tablet PC and Hand Held Computer solutions will be made available to resellers throughout Australia. "Nova is very excited to be working with Tegatech Australia as our Exclusive Partner in Australia and New Zealand. Tegatech lends a great depth of expertise at the Distribution level, and their niche focus on Tablet PC and UMPC suits us nicely." - George Ecker, CEO Nova Mobility Systems.

Tegatech has seen a great increase in demand for Rugged Tablet PC solutions which support the Windows XP Platform. They have not been able to meet these demands as outdoor viewability was poor and rugged devices were often too expensive. "The arrival of Nova's products is probably the most exciting launch for us this year and will sit nicely with Resellers targeting Military, Police, Mining and many other Mobile specific needs." – Hugo Ortega, Principal Tegatech Australia.

About Tegatech Australia

Tegatech Australia Tegatech Australia is a privately owned Company that has been in operation since 2003 as Australia's only Tablet PC specific Distributor. With a growing Channel of Resellers interested in Tablet PCs the Company has experienced rapid growth. Tegatech's network of Authorized Resellers span the entire Nation and now reach into New Zealand. A strong collaboration with Microsoft Australia means that Resellers are supplied a steady source of Information and fed opportunities to leverage their own sales.
